I created a logo for Olathe North's Eagle Academy Tutoring service, which will help educationally assist and support those who seek more personal mentoring from their peers. This upholds the pillar of scholarship because it involves helping other learn and gain understanding and topic mastery. In total this design took me around 2 or 3 hours to complete, just because I'm inexperienced with design and I wanted to make it look good (plus I count all of that as freetime, I'm bored as heck right now and really had fun doing this).
